## Intelligent reporting with ISP-Report

ISP-Report allows you to monitor the performance of your invoicing processes. Are you a financial manager, business analyst or CFO? With ISP-Report you now have a full overview of your performance reports.

Keen to improve the processing time of your invoices or the performance of your staff? Analyses and extensive reports give you a clear insight into all your KPIs.

Get a grip on your business and your entire Purchase-to-Pay process thanks to ISP-Report.

## A tight grip on your invoice processing

Analyses allow you to monitor the performance of your invoice processing. Check whether you need more capacity straight away or you can deploy your staff to other activities.

## Control of your accounts payable

As a finance manager you lead the creditor administration based on data. Get an insight into your coding speed and quality, and into the number of invoices a specific account payable employee has processed.

The right insights enable your staff to excel.

## Check your business

Gain an insight into the performance of budget holders, approvers and advisors. Are invoices stuck with specific approvers for too long?

Identify any bottlenecks of various players in your invoice processing.

## Insights into supplier performance

How do your suppliers perform based on matching results? Do your suppliers meet their pricing agreements? How many credit notes do you receive from each supplier? The reporting tool helps you monitor the performance of all your suppliers.

Keep track of all your KPIs.\*
